FINANCIAL AND COMMERCIAL.

THURSDAY, July 8-6 P. M. The speculative movements of to-day were all affected by the intelligence from Washington that Secretary Boutwell intended purchasing an addinal three millions of bonds, not for the Sinking fund, but to be retained by the custodian of that news was confirmed by inquiring at the Sub-Treawould be made on Friday at noon in the usual manner. It is creditable to Mr. Boutwell's a iministra that he is thus bringing to bear the stock gamblers the same policy which he used so skilfully against the gold speculators. To the public at large this policy will commend itself, for the reason that in withdrawing the bonds, even temporarily and to await the pleasure of Congress, he is saving the interest and reducing taxation. Business men, who are so dependent upon a natural condition of the money market, will rejoice to see the restoration to circulabaiance in the Treasury is so large that he can easily chases until entire case is restored to the money market. His policy is thus doubleedged in its capacity for doing good. Besides, he should not resitate to give the gamblers who have looked up money the full benefit of his powers to remedy the present abnormal condition of affairs. The Secretary of the Treasury is a fiduciary agent for the whole people of the United times. A few cliques and combinations in Wall treet, who are operating in stocks, have taken advantage of his heavy Treasury balance and of the the screws to the street for the purpose of forcing a their control and advanced the rate of interest to figures which have driven commercial men to the necessity of standing the most outrageous discounts or becoming bankrupts. When the gold gamblers an up the premium he disbursed gold to the market at the rate of two millions a week. The gamblers operating in currency or greenbacks just as they same strategy. He should pour out his currency Shylocks would then cease to fight the natural course of money and the market would work around o its legitimate condition. The beauty of such a proceeding is the impetus it would give to our national credit, the spectacle being presented to the world of a people earning money so fast that the are compelled, from time to time, to sell gold or to buy their bonds in order to get rid of their surplus sh. The street was very much exercised to-day ecause some leading operators had obtained lowledge of Mr. Boutwell's intentions in advance of the public, and a great deal of ill feeling was mani-

hirty-seconds at half-past two o'clock. Before the lose of banking hours the rate had fallen to seven be had at four per cent. The dealers on the sideralk in front of the Stock Exchange were quite shy and uneasy in consequence of the action of the Disrict Attorney in summoning witnesses before the rand Jury to testify as to usurious practices. hatever the penalty-and there is a great difference opinion on the subject-a case is being made up gainst a prominent firm on the north side of Wall treet, adjoining the Sub-Treasury, the witnesses gainst them being also a prominent firm and near

ws and advanced from a half to one per cent upon ne general list. The 67's sold freely at 117. The narket subsequently fell off, but remained firm at he decline, the London price coming steady at \$1 \lambda_i.
